## RIMAS NT/P Feature Spotlight...

### Material Receiving Schedule Entry

The Material Receiving module contains a Scheduled Receiver Entry program used to record instances when a shipment is expected to be received. This allows the receiving dock to be prepared should multiple shipments be scheduled to arrive simultaneously.

The records entered in this program are available for viewing in the View Scheduled Receivers program and can be printed out in calendar format in the Appointment Calendar Register. Scheduled Receivers can also be opened and viewed in Receiver Entry for the purpose of entering weights.

When scheduled receipts are entered into the system the net weight being received, carrier, vehicle identification information, freight information, earliest and latest time of arrival, and contract information are included.

Seq	Item	Commodity	Yard	Description	Packaging	Recv Net
1	AL015	1		CLEAN SHEET ALUMINUM		6,800

The Scheduled Receiver Form is a customizable form, meaning that if you right-click on the button and select 'Design Form Format' then you can customize the look of the form in Report Builder to match your company's documents.

There is a *Clone* function that allows you to duplicate the current record, saving time on frequently or routinely received commodities. Multiple new scheduled receipts can be created at a time.

## RIMAS MMC Online Help

An online help file is now available for use within the RIMAS MMC system. The online help file is integrated within the RIMAS MMC system so that users can press the F1 button from within any program and view the related help information. Each field within the MMC system has been defined and related topics have been cross-referenced.

The download file can be found on the Shared Logic website at [www.sharedlogic.com/MMC\\_home.com](http://www.sharedlogic.com/MMC_home.com).

1. To download click on the .zipexe file under the Online Help for RIMAS MMC.
2. You will be prompted to save the file and should select the RIMAS\_NTP/Help directory on your server.
3. After the file has been downloaded, double-click on it, ensure the location to which to unzip, and select *Unzip*.

## Perry Jacobs Takes Ownership Position

Larry Smith, President of The Shared Logic Group, Inc. announces that Perry Jacobs, Executive Vice President, has taken an ownership position in the company alongside Smith and Stephen Brown, effective March of 2007. Jacobs, a Bowling Green State University graduate, has been employed at Shared Logic for sixteen years and is intricately involved in the development of all new software applications. Perry began his career with Shared Logic as a software support technician for DOS applications, eventually assuming primary responsibility for creating the RIMAS NT/P application for Windows and becoming the Windows Department Manager. He was promoted to Vice President of Software in 2000 and Executive Vice President in 2004, a position he will continue to hold. Shared Logic wishes to congratulate Perry on entering into ownership of the company with Steve Brown and Larry Smith.

## Monte Porter Welcomed to SLG

Larry Smith announces the expansion of Shared Logic's sales staff in the hiring of Monte Porter as Sales Manager. Porter joined the Shared Logic team in December of 2006 and will assume the responsibilities of primary sales contact within the company. Monte's diverse background includes a degree in Business Management and over fifteen years working in sales. Sales inquiries can be directed to Monte at [monte@sharedlogic.com](mailto:monte@sharedlogic.com) or 419-865-0083.
